High Water & the SMP

Washington
**Sensible
Shorelines**
Association

Save Tuesday evening March 22nd to join your neighbors at Vasa Park...

Here are lakes Sammamish and Phantom under normal conditions . . .

Here they are under current, mismanaged conditions . . .

This is Lake Sammamish in a 10 year storm and Phantom under a blue-green algal bloom

- **What would Sammamish look like in a 40, 50 or 100 year storm?**
- **Why are these blooms occurring on Phantom?**

As important –

- **What will new regulations being proposed by City staff impose on shoreline property owners?**
 - **Will homes too close to the lake be removed or will they be protected?**
 - **Will you be required to remove your bulkhead or put tall trees on your shoreline?**
 - **Who will be responsible if these actions fail?**

Save Tuesday evening March 22nd to join your neighbors at Vasa Park Ballroom at 6:30 PM to get answers to these and other important questions.
